Objectives of PCS

- a) To promote education and information on Palliative Care among health care workers, volunteers and the general public.
- b) To address issues or problems associated with Palliative Care.
- c) To support any institution (public or private) establishments or organisations which are working towards raising the standards of practice and training Palliative Care in Sibu.
- d) To forge networks with other Palliative Care Society/Establishments at state, national and international level.
- e) To plan and execute programmes relevant to Palliative Care.
- f) To forge networks with other Palliative Care Society/Establishments at state, national and international level.
- g) To raise and manage funds for the purpose of managing the Association and providing care for Palliative Care Patients

Current activities & Challenges

1. Current services provided by PCS are limited to the following

- Home care/nursing
- Loan of equipment and medical devices
 Beds, wheelchairs and Oxygen concentrator

2. Challenges

For now we don't face any major challenges as our activities are still manageable but when we expect to face the following challenges when we start expending our services in the near future

- Lack of trained and experienced personnel
- Funding
- Recruiting volunteers
