

**MAKNA (Majlis Kanser
Nasional)
BURSARY PROGRAMME**

A MEANINGFUL BEGINNING

“ All our work, success and growth, rest entirely on your support. ”

Dato' Mohd Farid Ariffin

MAKNA was founded by Dato' Mohd Farid Ariffin in Kuala Lumpur, Malaysia in 1994. He left his Deputy Health Minister post to set up MAKNA, after realising through his own experience with his son's struggles with leukaemia, that cancer patients from poor financial background would find it difficult to afford treatment.

26 years on, MAKNA is still going strong. This home-grown social enterprise that offers a comprehensive range of services to those affected by cancer continues to play an important part in helping cancer patients with treatment, financial support and post-treatment issues, regardless of background, race, creed, colour and station.

MAKNA is a member of the Union for International Cancer Control (UICC)
